DAR BPO

Back End Web Developer

Description

DAR BPO seeks a motivated and results-driven Back-End Web Developer to join an established, tight-knit, and collaborative development team led by a senior Full-Stack Developer with over two decades of industry experience. The Back-End Web Developer will be responsible for developing new features, building reusable code and libraries for future use, optimizing applications for maximum accessibility, speed, and scalability, and collaborating with team leads, front-end developers, QA, and Marketing team members to ensure an exceptional result. Take assigned tasks, perform a well-researched flowchart, complete the job, and write well-structured documentation and commented codes.

Skills
